Alaska The Great Land

Majestic blue glaciers, stunning mountain peaks, untouched wilderness, and amazing wildlife — these are the attractions that bring people to Alaska. By far the largest state in the US, Alaska is twice the size of Texas and 3-1/2 times the size of California. With 100,000+ glaciers, Alaska has more than twice the ice formations of the rest of the world combined. The Great Land also boasts 39 mountain ranges, including 17 of the 20 tallest mountain ranges in North America.

Alaska is an amazing wild life domain, home to 35+ species of animals and 135+ species of birds, including bald eagles, moose, Dall sheep, caribou, wolves and grizzlies. Nothing on earth offers the peace and tranquility of the deep winding channels and the quiet bays of Alaska's magnificent blue/green waterways. You owe it to yourself to experience the immensity and sheer beauty of The Great Land, The Last Great Frontier!
